

# SPECIFICATION OVERVIEW

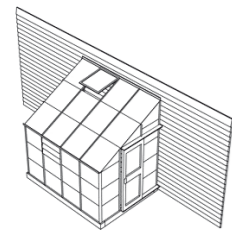

## EDEN GRAND

A recently designed greenhouse concept for the serious gardener enabling separate large growing space options, unique layout using the proven EDEN modular concept. Aluminium base, double door, 3 roof vents and two 3-blade louvres as standard features. Hi-wall on both entry module and main house module. Partitioning options available on request.

### GREENHOUSE OPTION

	WIDTH (mm)	LENGTH (mm)	HEIGHT TO RIDGE (mm)	HEIGHT TO EAVES (mm)	DOOR	LOUVRE	VENT
Grand	2550	3780	2400	1650	-	2	2
	2550	1270	2400	1650	Dble	-	1
Grand-X	2550	5100	2520	1630	-	2	2
	2550	1320	2520	1630	Dble	-	1

**NOTE:** Base included. Measurements shown on this model include base height of 120mm.

## EDEN LEAN-TO SERIES

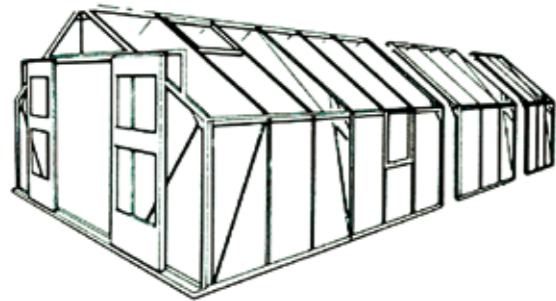

Gardeners with limited garden area can create their growing space on the side of the house or attached to fence or wall. Great for townhouses and apartments where they can be installed on the patio, balcony or in a small garden. Single sliding door as standard feature and large sizes include 3-blade louvre and roof vent. A great option when you want to continue gardening after perhaps downsizing to a more compact living environment.

### GREENHOUSE OPTION

	WIDTH (mm)	LENGTH (mm)	HEIGHT TO RIDGE (mm)	HEIGHT TO EAVES (mm)	DOOR	LOUVRE	VENT
LT42	700	1315	2000	1570	Single	-	-
LT62	700	1955	2000	1570	Single	-	-
LT68	1910	2550	2360	1570	Single	1	1
LT612	1910	3790	2360	1570	Single	2	1

## EDEN GREENHOUSE EXTENSION

The advice we give all our customers is to buy the largest greenhouse possible when first ordering. The Eden modular system allows to add on to any of the standard models in segments of approximately 630mm length modules. This can be done on initial purchase or if you find you outgrow space in your greenhouse later on. Optional dividing doors for plant separation can also be provided.

- NOTE:**
- Longer length options available on all models
  - Customised greenhouses available on request
  - Australia vents and louvres not supplied as standard please consult your distributor.

**EDEN ALUMINIUM GREENHOUSES/ GLASSHOUSES ARE MANUFACTURED IN NEW ZEALAND BY EDENLITE.**

These quality domestic greenhouses/ glasshouses are available in a series of designs, with full accessory range including shadecover kits, plant benches, staging, roof vents, crop clips and auto-vents. Distributed throughout New Zealand, Australia and the Pacific.

The EDEN brand has been established in New Zealand for over 40 years and gardeners throughout the world enjoy the benefits of greenhouses that last a lifetime. EDEN pioneered the use of aluminium frames with unique custom extrusions that are light, rigid and strong, requiring minimum maintenance.

Proven and tested by New Zealand consulting engineers, all products are kitset packed with step by step assembly instructions.

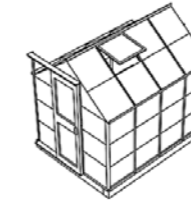

Take up greenhouse gardening and chances are you'll be hooked for life! It's important to make the right choice. The EDEN name has become synonymous with innovative design, robust construction and quality at value-for-money price.

**QUICK FACTS ON BUYING AN EDEN GREENHOUSE?**

- Strong, slimline aluminium frame with unique custom design.
  - won't warp, rust, rot or break down under Australasian conditions (unlike steel or PVC)
  - exceptionally rigid and independent certified wind tested to withstand the most rigorous conditions.
  - quality aluminium extruded in New Zealand.
  - low maintenance
- Full length aluminium gutters – no draughty air gap at eaves and allows catchment of pure rain water.
- High pitched roof correctly angled for maximum light transmittance.
- Condensation channels – protect plants from damaging water droplets.
- Tension sealed glazing from top to bottom – captures every last ray of sunshine.
- Glazed in glass – timeless, rigid, optically superior, high light transmission, allowing solar heat energy trapping re-emitted warmth from soil, structure and plants. Will not scratch and aesthetically pleasing.
- Glazing options available in acrylic or polycarbonate.
- Fingertip sliding draught proof doors – convenient and space saving on silent nylon wheels in a completely weatherproof track.
- Advanced ventilation system with opening vents (optional automatic vent openers available) and louvres on the larger models.
- Modular design which is easily extended – you'll never outgrow your glasshouse.
- Optional heavy duty aluminium base – won't rust, rot or contaminate soil, can make installation easier and designed to anchor straight on ground
- Full range of parts for all Eden greenhouses
- Powder coating – optional in colours of your choice.
- Assembly instructions.

**SPECIFICATION OVERVIEW**

**EDEN 6 SERIES**

The 6 Series is from the original EDEN range of greenhouses, 1920mm wide with a single sliding door as standard. Suitable for the gardener requiring smaller growing spaces or with limited garden area. An affordable quality option.
